

The Loudoun Wildlife Conservancy presents

Bringing Nature Home

Tuesday, March 22, 7 – 9 p.m.
at Ida Lee Recreation Center in Leesburg

“Which animals will make it and which will not?” We help make this decision every time we plant or remove something from our yards,” writes **Doug Tallamy**. He points out that we need to give consideration to what we plant in our gardens because they are part of the world that sustains humans and the life around us. Tallamy will discuss the importance of native plants in our landscapes, emphasize the importance of designing gardens with these roles in mind, and explore the consequences of failing to do so. Don’t miss this opportunity to hear this inspiring and enlightening message at this free program. *Sponsored by the Loudoun Wildlife Conservancy.*
